Discovery Kits

Introducing Discovery Kits at the Rowley Public Library

Welcome to the Rowley Public Library Discovery Kits. With a grant from the Library Services Technology Act (LSTA) the library has assembled 22 kits for use by teachers, homeschoolers, parents and independent learners. Kits are designed to enrich curricula and student learning and cover a variety of topics chosen in cooperation with teachers, homeschoolers and parents in the community. They contain multi-format materials including books, CDs, DVDs, games and models chosen to appeal to a variety of learning styles and ages. These kits are designed to meet the needs of elementary and middle school students.

What to expect from Rowley Public Library Discovery Kits:

- Twenty-two subjects covered
- Books covering a variety of reading levels
- DVDs and CDs as audiovisual tools
- Games and Models for hands-on learning
- Exciting and stimulating content
- Each kit will circulate as one item but a detailed bibliographical record will be included in the contents
- Suggested websites and other local resources will be included
- Evaluation forms to provide valuable feed-back
- Attractive, secure and easy to transport packaging

Why are these kits helpful?

- Kits can be used to engage in unit studies
- Kits can be used to supplement curricula
- Kits can be used to encourage deeper exploration of a topic
- Kits can be used by classroom teachers, homeschoolers, families and independent learners
- We have done all the work to ensure that each kit has adequate resources to facilitate a sort of 'one stop' shopping opportunity for our patrons
